

TC 1-1

Sections of the Paper

Select and compare at least two sections or pages of the paper, such as the business section and the sports section or the front page and the editorial page.

Consider these questions:

- Where in the paper are the sections or pages located?

- How is the look (look refers to layout and graphics) of the sections or pages the same? Different?

- How does the content of the sections or pages differ?

- Do the sections or pages use the same style of writing? Graphics? If not, how are they different?

Write your observations on the graphic organizer “Newspaper Section Inspection.”

Share your observations with the rest of the class.
